Education

Paris School of Economics

M.Sc. Analysis and Policy in Economics

Average: 15.7/20 (*High honors*)

Sep 2024 – Jun 2026

Paris, France

Master's thesis: *Power and Prejudice: How does Ethnic Hiring Discrimination vary across differently concentrated labor markets?*

Empirical study of heterogeneity in ethnic hiring discrimination by employer market power, combining correspondence-study data with measures of labor-market concentration and firm characteristics from French administrative data.

Supervisors: Thomas Breda and Morgane Laouénan. Referee: François Fontaine. Grade: 16/20.

University of Buenos Aires

B.A. in Economics

Average: 8.79/10 (*High honors*)

Apr 2019 – Dec 2023

Buenos Aires, Argentina

Undergraduate thesis: *Ethnic Discrimination in the Labor Market: The case of Colombia's rural sector.*

Empirical study on the probabilities of workers of different ethnicities being hired by employers from different ethnicities, using logit models on Colombian census data.

Supervisor: Danilo Trupkin. Grade: 10/10.

Research Experience

LIEPP – Sciences Po

Research Assistant under the supervision of Mirna Safi and Morgane Laouénan

Dec 2025 – now

Paris, France

Estimated the causal effects of an anti-discrimination policy using Difference-in-differences on large-scale correspondence study data.

Processed large-scale experimental microdata, ensuring data quality, consistency, and reproducibility of results.

Conducted quantitative and qualitative analyses of discrimination patterns across firms, sectors, and occupations, with a particular focus on heterogeneous effects.

Prepared analytical outputs, reproducible code in R Markdown, evidence summaries, and presentations.

MESi – IIEP (UBA-CONICET)

Research Assistant, projects with the ILO

Jun 2025 – Oct 2025

Remote

Co-authored two International Labour Organization reports on employment in the circular economy and e-waste sectors.

Analyzed international data covering European and developing countries, examining inequalities in employment outcomes across countries, gender, age, and skill groups.

Produced analytical reports and policy-oriented research outputs for international organizations and non-expert audiences.

OFCE – Sciences Po

Research Assistant under the supervision of Raul Sampognaro

Jun 2024 – Aug 2024

Paris, France

Constructed and managed large-scale administrative datasets by combining firm-level INSEE data with sectoral, price, and macroeconomic information from multiple sources.

Developed reproducible data processing and analysis pipelines in R.

Conducted econometric analyses of inflation dynamics, market power, price transmission, and heterogeneous responses to oil supply shocks across firms and sectors.

MESi – IIEP (UBA-CONICET)

Research Assistant under the supervision of María Priscila Ramos

Mar 2024 – Dec 2024

Buenos Aires, Argentina

Contributed to applied research projects on the care economy, climate policy, tourism, and infrastructure, including an assessment of the employment effects of alternative Panama Canal expansion scenarios.

Synthesized research findings, drafted and edited reports.

EDIL – IIEP (UBA-CONICET)

Research Assistant under the supervision of Danilo Trupkin

Jun 2023 – Jun 2024

Buenos Aires, Argentina

Drafted and edited academic research outputs for publication, in a project that studied occupational and income mobility in Latin America using household survey data.

Published Reports

Employment Embedded in Circular Economy Trade

With M. P. Ramos, C. Romero, G. Michelena, C. Ernst. [\[Link\]](#)

International Labour Organization, 2025

E-waste and Employment around the World

With M. P. Ramos, C. Romero, G. Michelena, C. Ernst. [\[Link\]](#)

International Labour Organization, 2025

Presentations

European Commission

Brown Bag Seminar.

Sep 2025

Brussels, Belgium

Presentation on the employment effects of the Circular Economy in the European Union

Teaching Experience

Université Paris 1 Panthéon-Sorbonne

Teaching Assistant, Open-Economy Macroeconomics (Prof. Brochard)

Jan 2026 – Jun 2026

Paris, France

IS-LM-BP models and international macroeconomic policy issues.

University of Buenos Aires

Teaching Assistant, Economic Growth (Prof. Trupkin)

Mar 2023 – Jun 2024

Buenos Aires, Argentina

Solow, OLG, AK, and learning-by-doing models. Designed problem sets and exams.

Skills

Programming: R (advanced), Stata (advanced), Python (basic), SAS (basic).

Methods: Causal inference, Difference-in-Differences, heterogeneous treatment effects, fixed-effects and panel-data models, linear probability models, logit and probit models.

Tools: L^AT_EX, Quarto, RMarkdown, GitHub, Power BI, Microsoft Office.

Data bases: Large-scale experimental data (correspondence studies), French administrative data (DADS, FARE, API, price indices), household surveys, census data.

Languages

Spanish (native)

English (fluent; MSc completed in English, IELTS Academic C1-Advanced level)

French (upper-intermediate; professional working experience)

Private sector experience

Kimberly-Clark

Business Analysis Intern

Jan 2022 – Jan 2023

Buenos Aires, Argentina

Analyzed macroeconomic indicators and product profitability to support pricing and commercial decisions.

Produced and communicated economic reports to non-technical stakeholders.

Other formation

University of Buenos Aires

B.A. in Social Communication

Apr 2018 – Dec 2020

Buenos Aires, Argentina

Selected coursework: Sociology, Psychology, Anthropology, and Semiotics. Average: 9/10

Discontinued to focus on B.A. in Economics.
